HOW IT WORKS

Hey, I'm Kelso! I'm a comic artist and storyteller who makes worldbuilding resources for other creators. Every month, I create mapmaking brush sets, conlang fonts, worldbuilding templates. I also host office hours and share behind-the-scenes content from my own work. You can access these resources by supporting me on Patreon. Here's how:

1. Check the rewards offered for each tier and sign up during the month with the rewards you want. **See calendar.**

2. You will receive rewards for the month you signed up for, **and** any subsequent months that you remain a Patron.

3. Rewards are sent to patrons at the **end of every month**. They are sent directly to your inbox so you will **not** receive any rewards from past months*.

Check Gumroad where I post resource packs from past months!
klgraywill.gumroad.com

Note: All the resources I share are for your personal use, do not use for commercial (for-profit) projects without my explicit permission and proper crediting.

Option A
If you want more resources, you can remain a member and get access to everything I make!

Option B
Unsubscribe if you don't want anything outside the month you signed up for.

patreon.com/klgraywill

*I do this to prevent people from joining my Patreon, downloading all the past resources, and then leaving. This only applies to my mapmaking brush sets, conlang fonts, and worldbuilding templates. You will be able to access any other previously shared content.
